ZIM School - Use Cases

00. Overview: actors, conventions and the full index

74 use cases (changes) · 64 views and reports · 10 module documents
Generated 2026-11-10.

1. Purpose of this set

These documents describe **what each kind of user can do** in ZIM School, step by step, with the rules that can refuse an action and the data each action changes. Together with the ERD document they explain the functionality and inner workings of the project. This overview introduces the actors and the conventions every use case follows; each numbered document covers one area of the system.

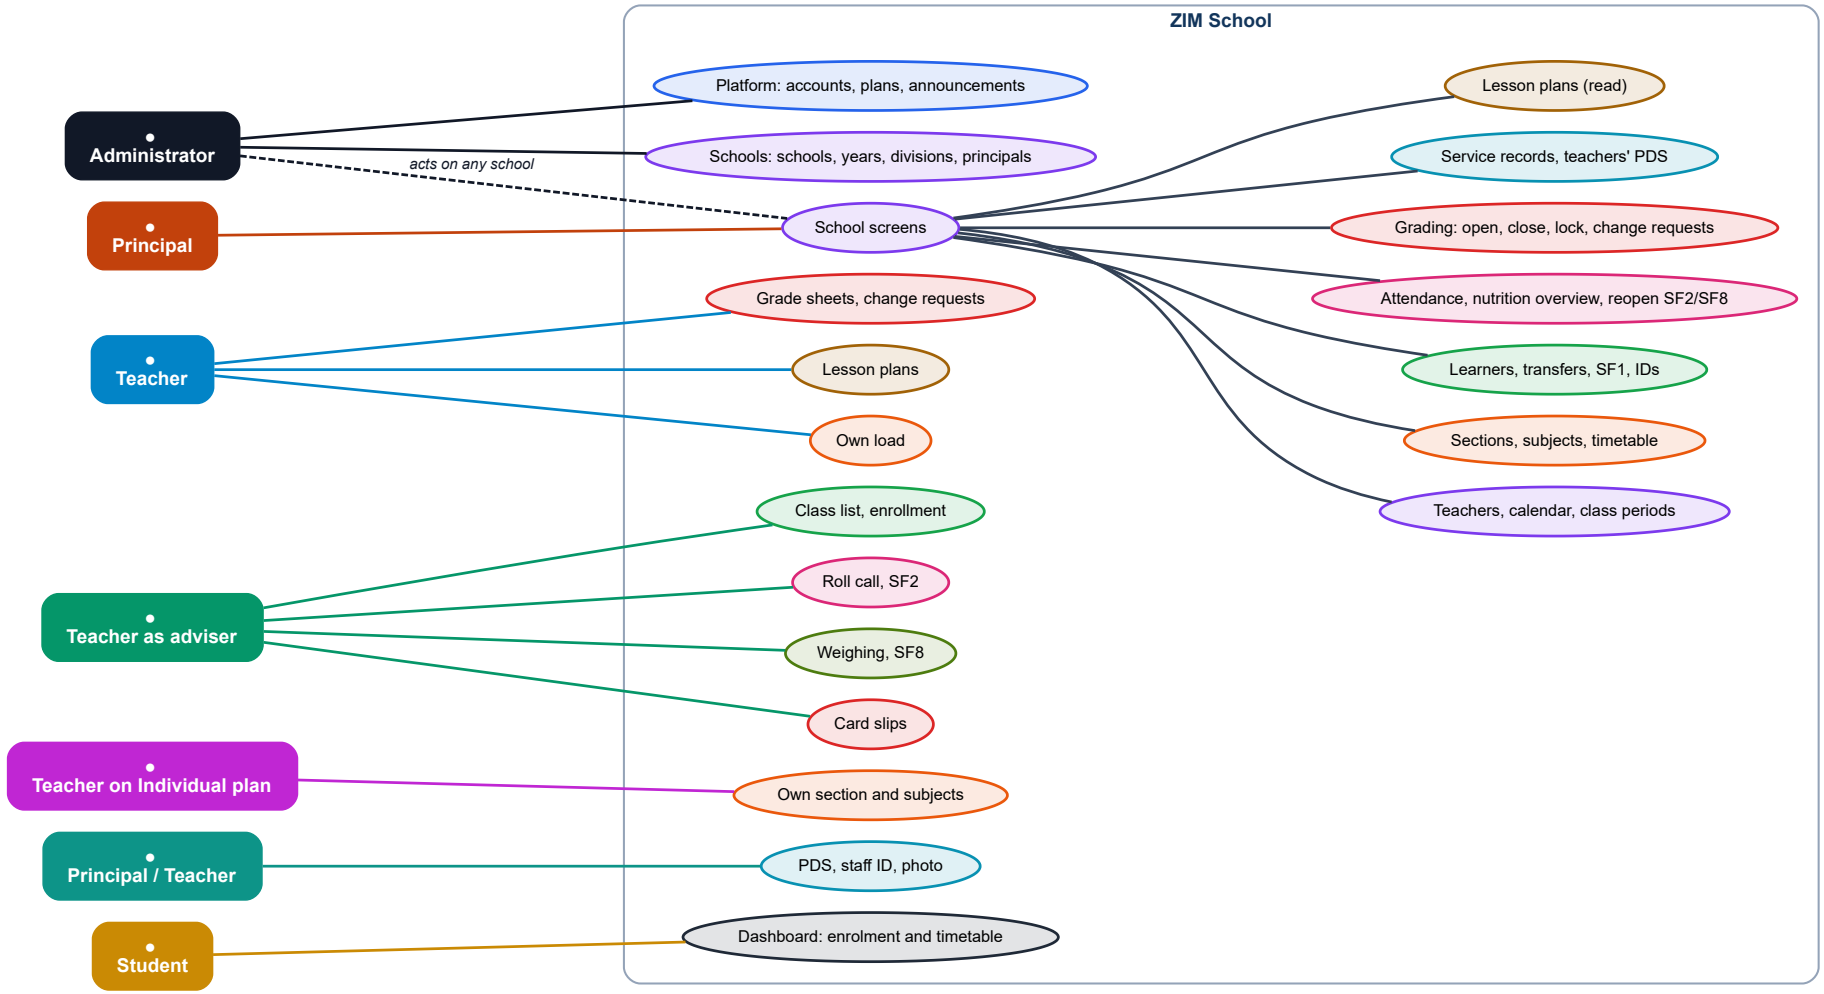

The documents

No.	Area	Modules	Use cases	Views
01	Platform: accounts, sign-in, plans and announcements	Access, Billing, Announcements, Core	9	5
02	Schools: schools, school years, divisions, principals, teachers and the calendar	Schools	17	9
03	Classes: sections, subjects, class periods, teaching loads and the timetable	Classes	10	6
04	Learners: enrollment, learner records, transfers, SF1 and learner IDs	Learners	11	8
05	Attendance: daily roll calls and the monthly SF2	Attendance	3	4
06	Grading: grade sheets, opening and locking periods, change requests and card slips	Grading	11	10
07	Nutrition: baseline and endline weighings and the SF8	Nutrition	3	4
08	Lesson plans: weekly ILAW plans	LessonPlans	3	5
09	Staff: Personal Data Sheet, service record and staff ID	Staff	7	6
10	Dashboards: the home page of each role	Dashboards	0	7

2. Actors

Actor	Who they are	Main screens
Administrator	Runs the platform. Role `ROLE_ADMIN`; the seeded account is `zim`.	`/admin/...`, and every `/schools/{id}/...` page of any school
Principal	Head of one school in the current school year (a `SchoolAssignment` with role principal). Only on plans that include a principal (Basic).	`/principal/...` and `/schools/{id}/...` of their own school
Teacher	Assigned to a school this school year. Teaches loads; may also be the **adviser** of one section.	`/teacher/...`
Adviser	A teacher who advises a section. Gets the class pages: class list, attendance, nutrition, card slips.	`/teacher/class/...`
Individual-plan teacher	The single teacher of a school on the Individual plan (no principal). Also creates their own section and subjects.	`/teacher/section`, `/teacher/subjects`
Student	A learner's account (username = LRN), created on enrollment.	`/student`
System	Automatic work: activity logging, sign-in recording, derived values (general averages, BMI, SF1 remarks).	-

3. Who does what

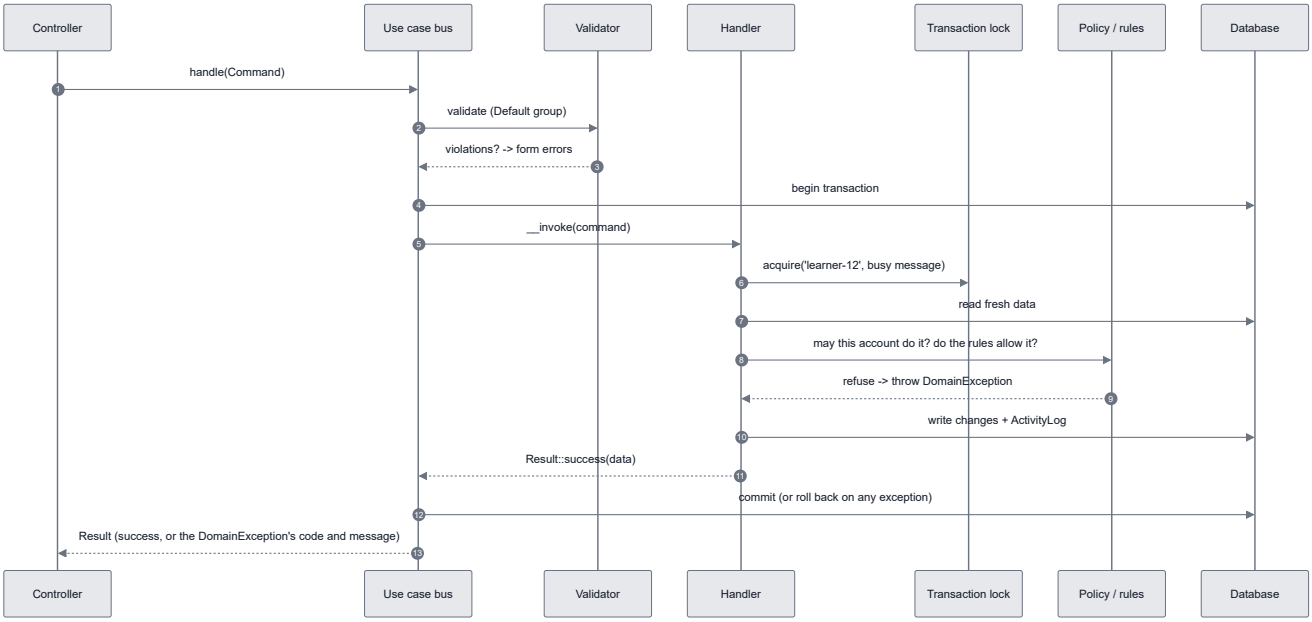

Administrator · Principal · Teacher · Teacher as adviser · Teacher on Individual plan · Principal / Teacher · Student — Line colour = the actor who starts it.

Access · Schools · Classes · Learners · Attendance · Grading · Staff · LessonPlans · Nutrition · Dashboards — Ellipse colour = the module that area belongs to.

4. How every use case runs

All changes follow the same path. Knowing it once explains the *In the code* row of every card.

Core The bus, locks and activity log are Core services.

Conventions

Concept	What it means for a use case
Command / handler	The command (`src/<Module>/Application/UseCase/Command`) holds the input and its validation; the handler (`.../Handler`, marked `#[AsUseCaseHandler]`) does the work. Forms bind directly to the command.
Query	A read (`.../Query/Command` + handler). It returns page data, a PDF or a spreadsheet and never changes anything. Some are cached and invalidated by tags.
Validation	Form-level checks (required fields, formats, uniqueness) run before the handler. A failure shows under the field.
Policy	Who may do it (`LearnerPolicy`, `GradePolicy`, `AttendancePolicy`, `NutritionPolicy`, `LessonPlanPolicy`, `SchoolVoter::MANAGE`, `ServiceRecordVoter`). A refusal is a 403 page or a message.
Rules	Whether the data allows it now (current school year, plan limits, period open/locked, month submitted, dates inside the year). A refusal throws a `DomainException` whose message is shown; the transaction rolls back.
Transaction lock	A named lock (e.g. `school-teachers-5`, `learner-12`, `grade-lock-5`) held until the transaction ends, so two people can't change the same data at once. If busy: "Another change is being saved. Please try again."
Plan limits	An inactive school or an expired plan makes its pages view-only; teacher and student counts are capped by plan x seats.
Current school year	Almost every change works only in the current school year. Past years are read-only history.
Activity log	Most changes add a line ("Created school ...", "Enrolled ...") to the admin's Recent activity.

5. Index of all use cases

ID	Use case	Actor	Doc
PLT-01	Sign in	Any user	01
PLT-02	Change own password	Any signed-in user	01
PLT-03	Create an account	Administrator	01
PLT-04	Edit an account (including its role)	Administrator	01
PLT-05	Deactivate or reactivate an account	Administrator	01
PLT-06	Reset an account's password	Administrator	01
PLT-07	Change or remove the profile photo	Principal, Teacher	01
PLT-08	Create, edit or delete a plan	Administrator	01
PLT-09	Post, edit or delete an announcement	Administrator	01
SCH-01	Add or edit a division	Administrator	02
SCH-02	Add or edit a school	Administrator	02
SCH-03	Activate or deactivate a school	Administrator	02
SCH-04	Add or edit a school year	Administrator	02
SCH-05	Make a school year current	Administrator	02
SCH-06	Assign or remove a school's principal	Administrator	02
SCH-07	Copy last year's principals	Administrator	02
SCH-08	Move a teacher account to a school, or take it off	Administrator	02
SCH-09	Edit the school profile	Principal	02
SCH-10	Add days off	Principal, Administrator	02
SCH-11	Remove a day off	Principal, Administrator	02
SCH-12	Create a teacher	Principal, Administrator	02
SCH-13	Add an existing teacher	Principal, Administrator	02
SCH-14	Edit a teacher	Principal, Administrator	02
SCH-15	Deactivate or reactivate a teacher	Principal, Administrator	02
SCH-16	Reset a teacher's password	Principal, Administrator	02
SCH-17	Bring back last year's teachers	Principal, Administrator	02
CLS-01	Create, edit or delete a section	Principal, Administrator	03
CLS-02	Bring back last year's sections	Principal, Administrator	03
CLS-03	Create, edit or delete a subject	Principal, Administrator, Individual-plan teacher	03
CLS-04	Add the DepEd subjects for a grade level	Principal, Administrator, Individual-plan teacher	03
CLS-05	Bring back last year's subjects	Principal, Administrator, Individual-plan teacher	03
CLS-06	Create, edit or delete a class period	Principal, Administrator	03

CLS-07	Set the teacher of a subject in a section (teaching load)	Principal, Administrator	03
CLS-08	Plot a class on the timetable	Principal, Administrator	03
CLS-09	Remove a class from the timetable	Principal, Administrator	03
CLS-10	Create own section (Individual plan)	Individual-plan teacher	03
LRN-01	Enroll a learner	Principal, Adviser, Administrator	04
LRN-02	Edit learner details (and the LRN)	Principal, Adviser, Administrator	04
LRN-03	Update this year's SF1 record	Principal, Adviser, Administrator	04
LRN-04	Set or remove the learner's ID photo	Principal, Adviser, Administrator	04
LRN-05	Reset a learner's password	Principal, Adviser, Administrator	04
LRN-06	Unenroll a learner	Principal, Adviser, Administrator	04
LRN-07	Move a learner to another section of the same school	Principal, Administrator	04
LRN-08	Transfer a learner to another school directly	Administrator	04
LRN-09	Request a transfer in	Principal (receiving school)	04
LRN-10	Approve or decline a transfer out	Principal (school being left); adviser on the Individual plan; Administrator	04
LRN-11	Cancel a transfer request	Principal (receiving school)	04
ATT-01	Take the day's roll call	Adviser	05
ATT-02	Submit the month's SF2	Adviser	05
ATT-03	Reopen a submitted month	Principal, Administrator	05
GRD-01	Save a grade sheet	Subject teacher	06
GRD-02	Open or close grading of a period	Principal, Administrator	06
GRD-03	Lock a period	Principal	06
GRD-04	Unlock a period	Principal	06
GRD-05	Unlock one class, or lock it again	Principal	06
GRD-06	Request a grade change	Subject teacher	06
GRD-07	Approve a grade change	Principal	06
GRD-08	Decline a grade change	Principal	06
GRD-09	Withdraw a grade change request	Subject teacher (the sender)	06
GRD-10	Save card slip comments	Adviser	06
GRD-11	Reset a learner's card slip comments	Adviser	06
NUT-01	Save the weighing	Adviser	07
NUT-02	Submit the SF8	Adviser	07
NUT-03	Reopen a submitted SF8	Principal, Administrator	07
LSP-01	Start or open a week's lesson plan	Teacher	08

LSP-02	Save the lesson plan	Teacher	08
LSP-03	Delete the lesson plan	Teacher	08
STF-01	Open the profile (start the PDS)	Principal, Teacher	09
STF-02	Save a PDS tab	Principal, Teacher	09
STF-03	Add or edit a service record row	Principal	09
STF-04	Delete a service record row	Principal	09
STF-05	Save the GSIS BP number	Principal	09
STF-06	Download a teacher's PDS	Principal, Administrator	09
STF-07	Save staff ID details	Principal, Teacher	09
