ZIM School - Use Cases

10. Dashboards: the home page of each role

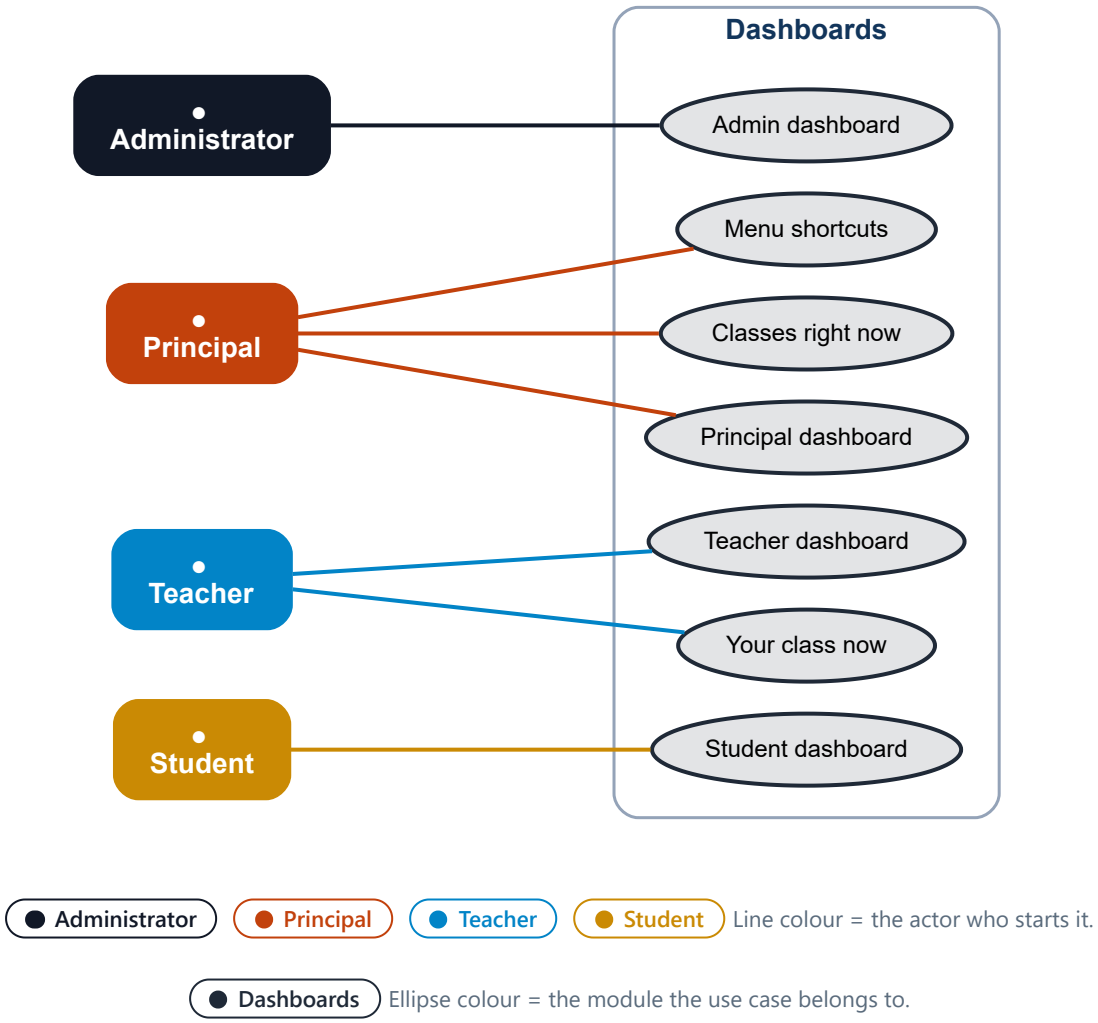

Modules: Dashboards
0 use cases (changes) · 7 views and reports
Written from the use case commands, handlers, policies and rules in `src/` on 2026-11-10.

1. What this area does

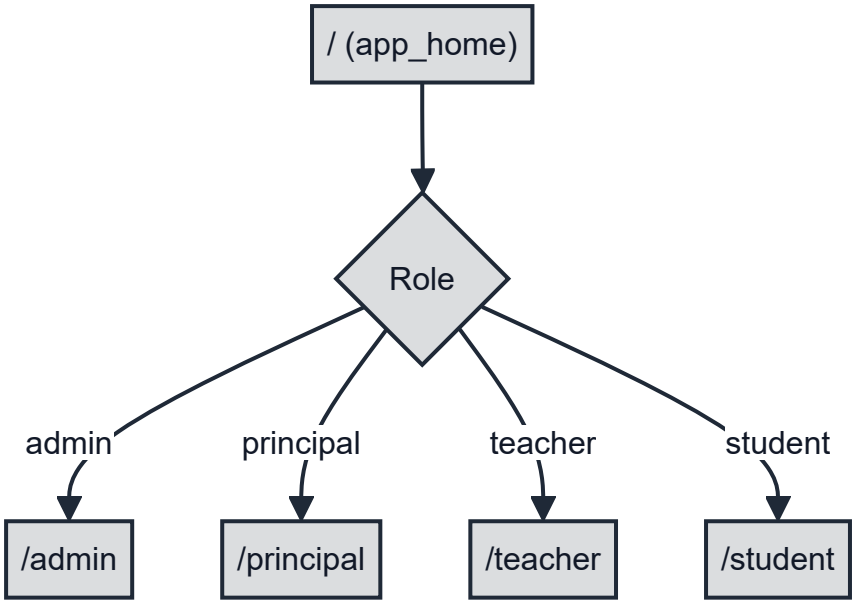

Dashboards is the top module. It has no tables and no changes of its own: each page is one query that reads the other modules through their public APIs. After sign-in, `app_home` (`/`) sends each user to their role's dashboard. The principal's menu shortcuts (`principal_teachers`, `principal_sections`, `principal_learners`, `principal_attendance`, `principal_nutrition`, `principal_grades`, `principal_subjects`, `principal_class_periods`, `principal_service_record`) find the school the principal heads this year and redirect to that school's page; a principal without a school sees the "not assigned" page.

2. Use case map

A standard use case diagram: the actors on the left, each use case as an ellipse inside the system frame, and a line for each use case an actor starts. A dashed line has a note on when it applies.

3.1 Flow: Home redirect

Dashboards Drawn in the colour of the module this flow belongs to.

4. Use cases (changes)

None: this area only reads. Its pages are listed below.

5. Views, downloads and reports (read only)

Each row is one query sent through the query bus. Queries change nothing.

Page / file	Who	Route	What it shows	Query
Admin dashboard	Administrator	`admin_dashboard /admin`	Plans ending soon, the current year's principal figures (active schools, principals assigned, principals not yet assigned, schools without a principal), account counts and Recent activity.	`GetAdminDashboardCommand`, `GetRecentActivityCommand`
Principal dashboard	Principal	`principal_dashboard /principal`	Teachers and learners counts vs the plan, why the plan blocks changes (if it does), pending transfers out, today's attendance, pending grade change requests, failing learners of the default grading period.	`GetPrincipalDashboardCommand`
Classes right now	Principal	`principal_now /principal/now`	What is being taught at the school at this moment (from the timetable and the school clock).	`GetPrincipalNowCommand`
Principal menu shortcuts	Principal	`principal_teachers ... principal_service_record`	Redirect to the principal's school pages.	`GetPrincipalSchoolCommand`

Teacher dashboard	Teacher	`teacher_dashboard` `/teacher`	The teacher's school and advisory, plan block notice, pending transfers out of the advisory.	`GetTeacherDashboardCommand`
Your class now	Teacher	`teacher_now` `/teacher/now`	The class the teacher has at this moment.	`GetTeacherNowCommand`
Student dashboard	Student	`student_dashboard` `/student`	The student's enrolment this year (section, remarks) and the section's timetable per term.	`GetStudentDashboardCommand`
